ORGANIC / BIODYNAMIC

Very close to Cordes sur Ciel, on the northern edge of the Gaillac vineyard, our estate has been established for almost 5 centuries on an exceptional terroir on the edge of the causses, land of oaks, stones and truffles. Cultivated in Organic Agriculture since 2016 and since 2019 in Biodynamics, the vines of Domaine Gayrard extend over 30 hectares. We favor native yeasts. These yeasts naturally present on the skin of the grape berries, bring to the wine the most sincere possible expression of the terroir, the climate, etc. Sulfites are added according to Biodynamic specifications, only when the wine is at risk and we deem it necessary to preserve its taste quality.

CERTIFIED ORGANIC

For six generations, the Peytavy family has taken turns on the slopes of Clos de l'Amandaie in the beautiful town of Aumelas, 25 km north-west of Montpellier. "Our vines located in the coolest part of the Grés de Montpellier appellation benefit from a unique microclimate.

Planted on the northern slopes of the Aumelas plateau, the freshness of the climate is significant there. Cooler nights and higher average altitudes, due to slower and more regular ripening of the grapes, push us to harvest later than our neighbours (mid-September) to offer wines borrowed from finesse and complexity." - Philip Peytavy - Owner and Winemaker

## NEW ZEALAND - GISBORNE, NORTH ISLAND

### MATAWHERO WINES

SUSTAINABLE

The Matawhero journey started with two New Zealand wine pioneers from the 1960s. Today the story continues around the drive & determination of Kirsten & Richard Searle, who purchased the Matawhero vineyard and winery in Gisborne from Denis in 2008.

They are the trusted Kaitiaki (guardians) of Matawhero and continue to develop the iconic winery and share the distinctive wine styles of the Tairāwhiti-Gisborne region. They produce famous NZ Chardonnay and other wines including aromatics like Gewürztraminer and lovely Reds.

NATURAL ORGANIC

Pedro Ribeiro and his wife Catarina Vieira are the dynamic duo behind the Espaço Rural wines. The winemakers, amazing in their own right, are happy to take a back seat and let the vines and land speak for themselves after years of love bringing them to their present state. Vineyards are not irrigated. The low-yields, careful pruning, and early harvest paired with slightly cooler microclimate in an otherwise severely hot region lead to some high impact, if unfamiliar wines.
